

ALOGIC Ultra 8K DisplayPort to DisplayPort Cable 2 m, HDR, 60 Hz - Space gray

Unlock the full performance of your high-end monitor and graphics card with the ALOGIC Ultra 8K DisplayPort to DisplayPort Cable. Engineered for professional creators and competitive gamers, this premium 2 metre cable delivers razor-sharp 8K visuals, ultra-smooth high refresh rates at lower resolutions, and rock-solid reliability for your workstation or battle station.

- Ultra-high definition 8K resolution support
- Built for high refresh rate 5K, 4K and Full HD displays
- Premium Ultra construction for maximum durability
- Secure latching connectors with easy-release design
- Fully featured DisplayPort 1.4 for HDR, audio and multi-screen setups

Ultra-high definition 8K resolution support

The ALOGIC Ultra 8K DisplayPort cable is built to meet and exceed VESA DisplayPort 1.4 specifications, enabling stunning 8K resolution at 7680 x 4320 and 60 Hz. Whether you are editing detailed video, working with complex data visualisations or simply enjoying ultra-sharp entertainment, the cable delivers exceptional clarity and colour. With support for Dynamic HDR, every frame is optimised for deeper contrast and more lifelike highlights and shadows, so your content looks exactly as it was intended.

Built for high refresh rate 5K, 4K and Full HD displays

Beyond 8K, this cable is designed to get the most out of high-refresh monitors at 5K, 4K, 2K and Full HD resolutions. Enjoy ultra-smooth gameplay and fluid motion with refresh rate support up to 240 Hz at 1920 x 1080 and up to 165 Hz at 2560 x 1440. At 4K and 5K resolutions, the cable supports up to 120 Hz for reduced motion blur and a more responsive feel. With Display Stream Compression 1.2 and a high bit rate 3 bandwidth of 32.4 Gbps, you can run demanding combinations of resolution, refresh rate and colour depth without sacrificing image quality.

Premium Ultra construction for maximum durability

The ALOGIC Ultra range is engineered for longevity and everyday reliability. This cable features a strengthened core with synthetic fibre reinforcement and a robust thermoplastic elastomer (TPE) outer jacket that resists kinks, bends and wear. The connector housings combine TPE for excellent strain relief with a metal alloy shell for added protection against impacts and repeated plugging and unplugging. The result is a cable built to handle intensive daily use at home, in the office or on the road.

Secure latching connectors with easy-release design

Both ends of the cable feature latching DisplayPort connectors that lock firmly into place for a stable, uninterrupted connection. This prevents accidental disconnections if your system is moved or cables are pulled. When you need to disconnect, the integrated easy-release button is designed for one-hand operation, particularly useful when working behind a monitor or in tight spaces. Press the latch, unplug smoothly, and reconnect with confidence.

Fully featured DisplayPort 1.4 for HDR, audio and multi-screen setups

As a fully featured DisplayPort 1.4 cable, this model supports much more than just high resolution and refresh rates. It is compatible with Display Stream Compression 1.2 for efficient high-bandwidth video, Forward Error Correction for signal integrity, and High-bandwidth Digital Content Protection (HDCP 2.2) for secure playback of protected content. With support for up to 32 uncompressed digital audio channels, it delivers immersive multi-channel sound alongside your video. Multi-Stream Transport (MST) enables advanced multi-monitor configurations from compatible PCs and docking stations, making this cable ideal for modern productivity and entertainment setups.

Package includes

- ALOGIC Ultra 8K DisplayPort to DisplayPort Cable, 2 metres - Space Grey

Product specifications

- Brand: ALOGIC
- Product name: Ultra 8K DisplayPort to DisplayPort Cable 2 m, HDR, 60 Hz
- Cable length: 2 metres
- Output: DisplayPort (Male) - Latching Connector
- Input: DisplayPort (Male) - Latching Connector
- DisplayPort version: VESA DisplayPort 1.4 compliant
- Maximum bandwidth: High Bit Rate 3 (HBR3), up to 32.4 gigabits per second
- Maximum resolution: 8K, 7680 x 4320 at 60 Hz, 5K support: 5120 x 2880 at 60 Hz and 120 Hz, 4K support: 4096 x 2160 at 60 Hz and 120 Hz, 120 Hz (4:4:4), 144 Hz (4:2:2), 2K support: 2560 x 1440 at 120 Hz, 144 Hz and 165 Hz, Full HD support: 1920 x 1080 at 120 Hz, 144 Hz, 165 Hz and 240 Hz

SPECIFICATIONS

Carton: 1/80
