

Experience high-quality connections between your USB-C device and VGA-enabled display with our new Satechi USB-C VGA Adapter. With a single VGA cable, you can share and display your device's content on any VGA display, ensuring a consistent and worry-free connection.

- USB-C connection
- 1080p resolution support
- VGA video connection
- Quality design
- Portable size

High-quality USB-C Connection

Our Satechi VGA adapter provides a seamless connection between your device and a VGA-enabled display using the latest USB-C technology. This allows you to explore and share content on a bigger screen with a more detailed view.

Exceptional 1080p Resolution Support

With the support of 1080p resolution, your device's visual content will be displayed at the highest quality, ensuring a crisp image and enhanced experience for your presentations, videos, and images.

VGA Video Connection

Quickly hook up our Satechi VGA adapter to any VGA display. It guarantees a sturdy and successful connection every time to display your device's content without hiccups.

Quality Design

Our Satechi VGA adapter is expertly designed to ensure a consistent connection while standing up to the rigours of repeated use. You can trust our product to last, giving you peace of mind and a stable connection.

Just the Right Size to Carry Around

The Satechi VGA adapter isn't just efficient; it is also portable. It easily fits in a bag or purse, perfect for individuals on the go. Now, you never have to worry about leaving your VGA adapter behind.
