

Meet the PlugBug 120W USB-C Charger with *Find My* capability by Twelve South—beautifully designed, powerful, and trackable. This compact charger not only ensures faster charging with multiple devices but also includes smart Find My technology, so you'll never misplace your charger again. Ideal for home, travel, and everywhere in between, the PlugBug is an essential companion for your charging needs.

- Built-in *Apple Find My* technology
- Ultra slim design with foldable plugs
- Smart power delivery for fast charging
- Four-port 120W USB-C GaN charger with interchangeable adapters
- Designed for travel with global compatibility

Built-in *Apple Find My* technology

Never lose your charger again with the Twelve South PlugBug 120W USB-C Charger. Integrated with *Apple's Find My* technology, you can effortlessly locate your charger using the Find My app on your iPhone. Whether left at a hotel, an airport lounge, or taken by one of your kids, the PlugBug can be tracked wherever it is, providing a seamless and efficient solution to keep your essentials intact.

Ultra slim design with foldable plugs

Designed with a sleek and ultra-compact form factor, the PlugBug lays flat against walls and outlets, saving space and avoiding clutter. The bold red accent makes it visually striking and helps it stand out from the usual sea of black and white chargers. Its foldable plugs make it an ideal travel companion, ensuring it fits neatly in your bag without taking up extra room.

Smart power delivery for fast charging

Benefit from smart power delivery that speeds up the charging process for multiple devices simultaneously. The PlugBug intelligently allocates power where it's needed most, ensuring your devices charge quickly and efficiently. This technology ensures optimal charging performance whether you're plugging in a phone, tablet, or laptop.

Four-port 120W USB-C charger with interchangeable adapters

With four USB-C ports and a total power output of 120W, the PlugBug allows you to charge all your devices from a single outlet. It comes with interchangeable adapters to cater to global power outlets, making it a versatile charger for international travel. Now, you can keep all your gadgets powered up, whether you're at home or abroad.

Designed for travel with global compatibility

Tailored for travelers, this charger supports an input range of AC 100-240V 50/60Hz, ensuring it works in any country. The GaN-powered design keeps it lightweight and efficient, making it perfect for packing in your carry-on. Whether you're navigating different voltages or varying power outlet standards, the PlugBug's global compatibility has you covered.
