EU Transparent Keyboard Cover?
Philbert's Keyboard Cover add style and protection for your MacBook's keyboard.
The silicone cover is simply placed over your keyboard and fits precisely. This unique keyboard cover is ultra thin and does not interfere with typing ability or speed. The illumination from a backlit Keyboard remain clear through the transparent keyboard cover.
Each key is individually molded and is specially printed on the highest quality of silicone for a durable and professional look. It is soft and flexible. The keyboard cover is removable so it can be cleaned easily. Philbert's keyboard cover is a perfect way to add a personal touch as well as protecting your keyboard against wear and tear and dirt. The inside of the keyboard is coated to avoid sticky adhesive residue on the keyboard. This process provides a matte finish without limiting clarity and transparency.
The EU Transparent Keyboard Cover Fits: MacBook Air 2020
The EU Transparent Keyboard Cover is "green" At Philbert, we have thought about the best ways to care for the environment. From choosing which materials to use, and the most environmental friendly colouring techniques, to packing materials. Our constant focus on producing products of the best quality combined with environmental friendly production, secures that the keyboard cover contributes to a sustainable earth. We are proud at Philbert, to being able to offer you "Green" keyboard cover's – and don't get us started on our amazing designs.
