Pipetto MacBook Sleeve 13-inch with memory foam and faux fur lining - Black

Pipetto MacBook Sleeve 13-inch with memory foam and faux fur lining is designed to keep your laptop safe, stylish and ready to go. Slim enough to slip into your bag, but tough enough to handle everyday knocks, this protective sleeve keeps your MacBook secure from bumps, scratches, dust and light spills wherever you work.

- Memory foam protection for everyday bumps and drops
- Water-resistant, hard-wearing ballistic fabric exterior
- Ultra soft faux fur lining to prevent scratches and dust
- Front storage pocket for your essential accessories
- Slim, lightweight design that slips easily into your bag

Memory foam protection for everyday bumps and drops
The Pipetto MacBook Sleeve is constructed with 5 mm closed-cell memory foam to absorb shocks and impacts from daily use. Whether you are commuting, travelling between meetings or working in a café, the foam layer helps protect your MacBook from accidental knocks, drops onto desks or pressure inside your bag. Designed to fit your device snugly, it keeps your laptop secure and cushioned at all times.

Water-resistant, hard-wearing ballistic fabric exterior
On the outside, the sleeve features a tough ballistic fabric that is both water resistant and tear resistant. This durable material stands up to everyday wear, helping protect your MacBook from light rain, small spills and scuffs when you are on the move. The rugged exterior is built for long-term use, so your sleeve keeps looking smart while keeping your device safe.

Ultra soft faux fur lining to prevent scratches and dust
Inside, your MacBook is cradled in an ultra soft faux fur lining that helps prevent scratches on the aluminium body and screen edges. The lining also acts as a gentle barrier against dust and dirt, keeping your device looking clean and new for longer. Slide your MacBook in and out smoothly, without worrying about micro-abrasions or marks from rough inner fabrics.

Front storage pocket for your essential accessories
The front storage pocket gives you space to keep your everyday tech essentials in one place. Store your charging cable, mouse, stylus or small accessories so they are always within easy reach. The organiser-style layout makes it simple to grab what you need quickly, whether you are heading into a meeting or setting up to work remotely.

Slim, lightweight design that slips easily into your bag
Despite its protective materials, the Pipetto sleeve is slim and lightweight, designed to slide neatly into your backpack, briefcase or tote. It adds minimal bulk while still providing serious protection, making it ideal for commuting, business travel or study. Carry it on its own for a clean, minimalist look, or use it as an extra layer of protection inside your favourite bag.
