SATECHI

Satechi Core USB-C to 4K HDMI Adapter - Indigo

Satechi Core USB-C to 4K HDMI Adapter connects your MacBook Neo to an external monitor, projector, or TV at 4K resolution and 60Hz. Its aluminum housing matches the Neo's body color, while the braided nylon cable matches its keyboard color. Built for MacBook Neo users who need a display connection at their desk or on the move, it runs on power from your device and requires no drivers.

- 4K at 60Hz via DisplayPort Alt Mode
- Four two-tone colors matched to MacBook Neo
- Plug-and-play connection with no drivers
- Aluminum housing and braided nylon cable
- Compact 4.5 x 2.5 x 1 cm design
- Compatibility with USB-C devices supporting DisplayPort Alt Mode

4K at 60Hz via DisplayPort Alt Mode
Connect to an external monitor, projector, or TV with 4K output at 60Hz via DisplayPort Alt Mode. Get a clear display connection for presentations, a larger workspace, or viewing content on a bigger screen.

Four two-tone colors matched to MacBook Neo
Choose from Citrus, Blush, Indigo, and Silver to match your MacBook Neo. The aluminum housing follows the laptop's body color, while the bottom housing and cable match its keyboard color for a coordinated two-tone finish.

Plug-and-play connection with no drivers
Connect the adapter to a compatible USB-C device and an HDMI display without installing drivers. Bus-powered operation means there is no separate power supply to connect.

Aluminum housing and braided nylon cable
The adapter combines an aluminum housing, a braided nylon cable, and a soft-touch finish on the bottom housing. These materials give it a considered finish on your desk and a comfortable feel when handling it.

Compact 4.5 x 2.5 x 1 cm design
The housing measures 4.5 x 2.5 x 1 cm, with a 12.5 cm cable. Its compact, lightweight design fits in a bag, laptop sleeve, or pocket, keeping a display connection close at hand.

Compatibility with USB-C devices supporting DisplayPort Alt Mode
Designed first for MacBook Neo, the adapter also works with other USB-C devices that support DisplayPort Alt Mode. Use it across compatible MacBook Pro, MacBook Air, iPad, iPhone, Mac desktop, and USB-C Windows devices.

Package includes

- 1x Satechi Core USB-C to 4K HDMI Adapter - Indigo
- 1x User Manual

Product specifications

- Brand: Satechi
- Connection: USB-C to HDMI
- Display output: 4K at 60Hz via DisplayPort Alt Mode
