Premium materials for the ultimate protection

The Mujjo Sleeve is crafted from a combination of thick, heavy felt fabric and soft genuine leather of exceptional quality. Designed to shield your MacBook in all situations, the sleeve provides reliable protection against bumps, scratches, and everyday wear. Its sturdy yet lightweight build adds peace of mind when carrying your device.

Beautifully crafted design with superior finishes

Attention to detail is at the heart of this sleeve, which features a sleek and minimalist design. The soft yet firm leather cover is complemented by a stylish gray metal button closure that securely locks the sleeve. Every element has been thoughtfully tailored to deliver a premium look and feel.

Thoughtful compartments for added practicality

This sleeve isn't just about protecting your MacBook—it's designed for functionality as well. The interior includes practical compartments to hold an iPad, a small pocket for a credit card, and space for an SD card. It keeps your essentials organized, making it perfect for work or travel.

Durable, eco-friendly felt fabric for long-lasting use

The felt fabric used in the Mujjo Sleeve is an environmentally friendly, highly durable material. It's resistant to wear, won't pill over time, and provides excellent protection for your MacBook. The fabric is also waterproof, making it easy to maintain and ensuring lasting reliability.

Waxed leather finish that ages beautifully

The soft leather cover features a waxed surface that not only provides an elegant appearance but also gets better with age. Over time, the leather develops a natural patina, becoming shinier and more attractive, while reflecting its unique character.
