Philbert Laptop Sleeve 13-inch Hemp - Black

Carry your laptop in a modern, minimalist sleeve that is as kind to the planet as it is to your device. The Baseus Philbert Hemp Sleeve combines eco-friendly materials, smart functionality and stylish design, giving you a versatile sleeve that doubles as a slim bag for everyday use.

- Eco-friendly hemp material
- Designed for 13-inch laptops (approx. 33 cm)
- Large external pocket for accessories
- Removable straps for use as a bag or sleeve
- Lightweight, unisex and easy to carry

Eco-friendly hemp material
The Philbert Hemp Sleeve is made from an innovative, environmentally friendly hemp fabric that reduces reliance on synthetic materials. Hemp is naturally strong, durable and long-lasting, giving your laptop sleeve a solid, protective structure while keeping its environmental footprint lower than traditional materials. The soft inner feel helps protect your device from scratches, while the outer hemp layer adds a natural, stylish texture.

Designed for 13-inch laptops (approx. 33 cm)
Tailored for 13-inch laptops, up to approximately 33 cm in screen size, this sleeve provides a snug and secure fit without unnecessary bulk. The dimensions are designed to protect slim ultrabooks and standard 13-inch notebooks, making it ideal for daily commuting, office use, studying or working in cafés. The compact form factor also makes it easy to slide into a backpack, briefcase or larger bag.

Large external pocket for accessories
A spacious pocket on the sleeve offers room for all your essentials: charger, mouse, cables, smartphone, notepad or pens. This large pocket keeps your accessories organized and easily accessible, so you do not need a separate bag for your basic work setup. The clean design ensures the pocket blends seamlessly with the sleeve for a sleek, modern look.

Removable straps for use as a bag or sleeve
With two sturdy attachment points and removable straps, you can instantly transform the Philbert from a simple sleeve into a slim shoulder bag. Use it as a standalone laptop bag when you want to travel light, or remove the straps when you prefer a minimalist sleeve inside another bag. This flexible design adapts to your day, whether you are heading to a meeting, class or a short trip.

Lightweight, unisex and easy to carry
The hemp construction and minimalist design make the Philbert Hemp Sleeve naturally lightweight and comfortable to carry. Its simple, clean lines and neutral material make it suitable for both men and women, pairing easily with casual, business or student styles. Whether in hand, over the shoulder or inside another bag, it offers stylish protection without weighing you down.
