- Premium YKK zippers and reinforced construction for long-term durability

Designed for travel with an intuitive carry handle

Built for movement, this folio sleeve is made to stay slim and comfortable in hand while you navigate airports, commutes, and meeting rooms. The integrated handle gives you a secure grip without adding bulk, so your device is easy to carry even when your bag is full.

Full-grain leather exterior with soft wool felt lining

The exterior uses full-grain leather that looks professional from day one and develops character over time. Inside, the wool felt lining cushions your device and helps reduce everyday wear from bumps and surface scratches during travel and daily use.

Wide U-shaped opening for quick, easy access

The U-shaped zipper opening runs along two sides to create a wide entry, making it easier to slide your device in and out. It is especially practical when you need fast access on the go, such as at security checks, on trains, or between meetings.

Dual storage compartments plus an internal card pocket

In addition to your laptop or tablet, the sleeve includes built-in storage to keep essentials together and easy to find. Carry items like a charger, cables, headphones, a pen, and documents, with a dedicated leather pocket inside for cards or ID.

Premium YKK zippers and reinforced construction for long-term durability

Details are designed to hold up to daily handling. The YKK zippers are smooth and reliable with custom gunmetal hardware, while the handle is reinforced with dual-layer leather and secured with rivets and double stitching to maintain its shape and strength over time.
