UAG Dryout AirPods Pro 3 Rescue Pod - Black

The Urban Armor Gear DRYOUT AirPods Pro 3 Rescue Pod in Black helps remove moisture from earbuds after workouts, rainy commutes or accidental immersion. Designed to fit most earbuds and other small hearing devices, this reusable pouch combines moisture-absorbing DRYOUT panels with a protective interior and a carabiner for easy carrying.

- Active moisture absorption
- Compatible with most earbuds
- Reusable drying technology
- Secure, easy-to-carry design
- Protective layered construction

Active moisture absorption
Integrated DRYOUT panels absorb moisture from sweat, rain, humidity and condensation. Approximate drying times range from 1.5 to 5 hours after light exposure and 2 to 10 hours after full immersion. Before use, turn off your device, remove accessories and removable batteries where applicable, and wipe away visible moisture.

Compatible with most earbuds
Keep one pouch ready for a range of small devices. The rescue pouch fits most earbuds, including AirPods and Pixel earbuds, as well as other small hearing devices.

Reusable drying technology
The moisture-absorbing core can be reset for repeated use, making the pouch a practical addition to your everyday kit. Reset it using sunlight, direct heat or forced airflow, following the manufacturer's instructions.

Secure, easy-to-carry design
A hook-and-loop flap keeps the pouch closed, while the integrated carabiner attaches to a bag or belt loop. Keep it close at hand when you are travelling, heading to the gym or spending time outdoors.

Protective layered construction
A PU-coated 600D polyester shell surrounds a 210D embossed liner and a protective Nylex fleece interior. Integrated DRYOUT panels bring moisture absorption into the pouch itself, combining device storage and drying in one compact design.

Package includes

- One black earbud rescue pouch with integrated carabiner

Product specifications

- Brand: Urban Armor Gear
