UAG Dryout Tech Sling - Black

Keep your everyday electronics organised, protected and close at hand with the Urban Armor Gear Dryout Tech Sling. This compact crossbody bag combines active moisture removal, protective padding and a durable CORDURA shell, with a reversible strap for comfortable carrying on either shoulder.

- Active moisture removal for damp electronics
- Organised storage for everyday essentials
- Protective padding and durable construction
- Wide opening for easy access
- Comfortable carrying on either shoulder

Active moisture removal for damp electronics
The DRYOUT panel in the main compartment removes moisture following exposure to sweat, rain, humidity or condensation. Approximate drying times range from 2 to 5 hours after light exposure and 3 to 12 hours after full immersion. The reusable core can be reset using sunlight, direct heat or forced airflow, following the manufacturer's instructions.

Before placing damp electronics inside, switch them off, remove accessories and removable batteries, and wipe away visible moisture.

Organised storage for everyday essentials
Carry your smartphone, compact tablet, headphones, power bank and other small electronics together in one bag. An interior pocket helps separate smaller items, while the integrated key clip keeps your keys easy to find. The sling also accommodates cables, adapters and handheld gaming devices.

Protective padding and durable construction
A 500D CORDURA shell provides a durable exterior, while 3 mm protective foam adds cushioning for your belongings. The laser-cut Hypalon front panel includes MOLLE-style attachment points for attaching compatible accessories.

Wide opening for easy access
The wide-opening main compartment makes it easier to see and reach your gear. Dual metal zipper sliders let you open the compartment from either direction, helping you retrieve essentials without unnecessary searching.

Comfortable carrying on either shoulder
Configure the quick-release strap for your left or right shoulder to suit your preference. A breathable Airmesh back panel supports comfortable carrying, whether you are commuting, travelling or moving between daily activities.

Package includes

- One Urban Armor Gear Dryout Tech Sling - Black
