UAG Dryout Tech Tote - Black - Black

Urban Armor Gear Tech Tote is built to carry and protect your everyday technology with confidence. Designed for laptops, tablets, accessories and other essential electronics, it combines organized storage with integrated DRYOUT Active Moisture-Removal Technology to help protect your devices from moisture caused by rain, spills, humidity and condensation.

- Moisture-removing laptop sleeve
- Protection for everyday tech
- Reusable DRYOUT technology
- Organized storage
- Travel-ready waterproof construction

Moisture-removing laptop sleeve
The integrated DRYOUT sleeve helps remove moisture from your device before it can cause further damage. It is designed to pull moisture away from laptops, tablets and electronics exposed to sweat, rain, condensation, humidity or accidental liquid contact.

Protection for everyday tech
The Tech Tote fits laptops up to 40.6 cm, tablets, detachable keyboards, external drives, styluses, input devices and other similarly sized electronics. It gives your essential tech a dedicated place to stay protected whether you are commuting, working or traveling.

Reusable DRYOUT technology
DRYOUT technology pulls moisture from your device, traps it in its absorbent core and releases it when reset using sunlight, direct heat or forced airflow. After light exposure, leave your device in the sleeve for 3 to 7 hours. After full immersion, allow 5 to 9 hours.

Organized storage
A spacious main compartment gives room for larger devices, while interior zip and slip pockets keep smaller accessories neatly stored. A rear exterior zip pocket provides quick access to frequently used items, helping you stay organized throughout the day.

Travel-ready waterproof construction
Large tote handles and a luggage pass-through make the bag easy to carry during travel. An interior water bottle pocket and exterior gear loops keep essentials close, while the PU-coated 600D polyester shell and fully seam-taped waterproof construction provide dependable all-weather protection.
