

## HerQs Pin PRO Meat Thermometer - Black

Introducing the HerQs Pin PRO: the ultimate kitchen companion for precise and convenient cooking. Revolutionize your culinary experience with this fully wireless meat thermometer designed to simplify cooking and elevate your dishes to perfection.

- 2x Wireless and Rechargeable Probes
- Precise Temperature Monitoring up to 500°C
- Detailed Insights with free herQs App
- Remote Monitoring with customizable alerts
- Wide outdoor and indoor wireless range up to 60m
- Robust Design with IP65, FDA, and LFGB certification

### Wireless and Rechargeable Probes

The HerQs Pin PRO comes equipped with two state-of-the-art wireless probes, allowing complete freedom of movement in the kitchen. These probes are conveniently rechargeable, with a discreet storage and charging spot at the back of the device. This intelligent design means your probes are always ready for the next culinary challenge.

### Detailed Insights with herQs App

The device connects with the herQs App to provide users with comprehensive insights into their cooking process, including preset cooking values for various types of meat and preferred cooking levels. The interface displays the current and target temperatures alongside a comprehensive temperature progression graph, giving you total control over your meal.

### Remote Monitoring

The HerQs Pin PRO ensures you're always in the loop, making multitasking in the kitchen easier than ever. The device can be monitored via the included device or a smartphone, allowing users to engage in other activities while keeping an eye on their cooking.

### Versatile Temperature Range

The thermometer boasts a substantial wireless range, long battery life, and precise temperature measurement capabilities, ensuring reliability and convenience for various cooking settings. Its impressive temperature range handles peak heat levels up to 500°C, catering to various cooking styles.

### Compatibility and Convenience

Compatible with iOS and Android devices, the herQs App complements the device by offering a centralized platform for managing cooking processes, contributing to an all-encompassing cooking experience.

### Package includes:
