Its compact size doesn't compromise function, delivering sustained fire enjoyment that turns any terrace into the perfect relaxing venue.

Unique Double Combustion System

Achieve a smoke-free experience with our innovative double combustion system, integrating dual walls and air flow technology. As air is drawn from below, it travels through these walls, heating up for a secondary combustion. The result is clean, pure heat that manifests as crystal-clear flames, leaving no trace of smoke or odor.

Designed to be the heart of your intimate gatherings, the Mighty fire pit effortlessly creates an inviting atmosphere. Its size is perfect for 2-4 people, making it ideal for patios and small outdoor spaces where you can enjoy the company of friends or family without constant movement around the fire.
