

herQs Wood Wool Firelighters

Light your fire quickly, cleanly and with confidence. herQs Igniters are made from wood wool and plant-based wax, giving you a simple and reliable way to start pellets, wood fires and fire pits without mess, chemical smell or unnecessary effort.

- Made from wood wool and plant-based wax
- Lights quickly with a clean and simple start
- Suitable for pellets, wood and fire pits
- No chemical smell and no messy preparation
- 100 pieces for long-lasting convenience

Made from wood wool and plant-based wax

herQs Igniters are produced from natural wood wool and plant-based wax. This gives you a practical firestarter that is easy to use and pleasant to handle, without the strong smell or residue often associated with chemical firelighters.

Lights quickly with a clean and simple start

Starting your fire is straightforward. Twist an igniter, light it and let the flame do the work. There is no need for newspaper, no complicated setup and no extra steps. It is a dependable solution when you want to get your fire going without delay.

Suitable for pellets, wood and fire pits

herQs Igniters are designed to work across different types of fires. For pellets, place the igniter on top. For wood, place it underneath. They are also ideal for fire pits, giving you flexibility whether you are lighting a compact setup or preparing a larger fire.

No chemical smell and no messy preparation

These igniters help keep the experience clean and comfortable. You avoid the mess of torn paper and the unpleasant smell of chemical blocks, so you can focus on enjoying the fire rather than dealing with the preparation.

100 pieces for long-lasting convenience

With 100 igniters in one pack, you have a practical supply for regular use throughout the season. Whether you light your fire pit occasionally or use it often, this pack gives you the convenience of always having reliable firestarters ready when you need them.

Package includes

- 100 x herQs Igniters firestarters
