- Corner air cushions for drop protection
- Raised bezels for screen and lens safety
- Wireless charging and precision fit

Crystal-clear, anti-scratch polycarbonate back
Enjoy the original look of your iPhone 14 with a hard, transparent polycarbonate back that resists scratches and keeps your phone looking new. The clear shell is engineered not to yellow easily, so your device stays crisp and clean over time.

Shock-resistant thermoplastic frame
A flexible yet tough thermoplastic frame wraps securely around the edges of your phone to absorb everyday knocks. It delivers a confident grip and durable protection without adding unwanted bulk.

Corner air cushions for drop protection
Integrated air cushions in all four corners act as mini shock absorbers, dispersing impact energy if your phone takes a tumble. This smart reinforcement helps guard against chips, cracks, and corner damage.

Raised bezels for screen and lens safety
Subtle raised edges lift your display and camera lenses off flat surfaces to reduce the risk of scratches. Place your phone face down or camera down with peace of mind at your desk, in a bag, or on the go.

Wireless charging and precision fit
Designed for a perfect fit on iPhone 14, TENC Air features covered buttons with tactile feedback and precise cutouts for all ports and sensors. It is fully compatible with wireless charging, so you can power up without removing the case.
