True full-screen coverage, even over the iPhone curve
Designed to match the contours of iPhone X and XS, this protector offers true edge-to-edge coverage, including the curved edges of the screen. A silk-colored border blends cleanly with your device for a seamless, full-coverage look and reliable protection at the perimeter where impacts often occur.

Silky smooth, highly responsive touch
Engineered for a sensitive, accurate touch experience, the glass surface feels silky under your fingers and maintains the fluid responsiveness you expect. Gestures, typing and gaming remain precise and effortless.

Oil, water and fingerprint resistant coating
An advanced oleophobic coating repels smudges, oils and moisture, making your screen easier to keep clean throughout the day. Wipe away fingerprints and streaks quickly while maintaining a clear, pristine view.

Precision laser-cut sensor cutouts and rounded edges
Laser-cut openings align perfectly with front sensors for unobstructed performance, while rounded edges enhance comfort and help prevent chipping. The result is a refined, case-friendly fit that feels as good as it looks.
