

Lite bulb moments Smart Bulb E27

Bring flexible, connected lighting into your home with Lite Bulb Moments Smart Bulb E27 RGB. This 3-pack gives you adjustable white light, full RGB colour control and smart app features in a simple E27 format. Set the right brightness, colour and schedule for each room, and control your lights by app or voice through Google Home and Amazon Alexa.

- Circadian lighting for a more natural daily rhythm
- Full RGB colour control with over 16 million colours
- Voice control with Google Home and Amazon Alexa
- Energy-efficient LED lighting with dimming and timers
- Simple setup with Wi-Fi and Bluetooth support

Circadian lighting for a more natural daily rhythm

Lite Bulb Moments is designed to support lighting that follows the natural cycle of the day. Use warmer, softer light in the evening and brighter, cooler light during the day to create a more comfortable home environment. This makes it easier to adapt the lighting to sleep, focus, relaxation and everyday routines.

Full RGB colour control with over 16 million colours

Choose from a full RGB colour scale and adjust the atmosphere in each room to suit the moment. Select calm tones for relaxing evenings, clear white light for practical tasks or colourful lighting for social occasions. With adjustable colour temperature from 2700 to 6500 K, the bulb also works well as everyday white lighting.

Voice control with Google Home and Amazon Alexa

Control your lights hands-free with Google Home and Amazon Alexa. Turn lights on or off, adjust brightness or change colours using simple voice commands. This gives you convenient control in kitchens, bedrooms, living rooms and children's rooms without needing to reach for your phone.

Energy-efficient LED lighting with dimming and timers

Each bulb uses 8.5 W while providing light output equivalent to a traditional 60 W bulb. Brightness can be adjusted through the app, and timer functions help ensure the lights are only used when needed. This makes it easy to reduce unnecessary energy use while keeping full control of your home lighting.

Simple setup with Wi-Fi and Bluetooth support

Each bulb connects individually to your home network for straightforward installation. The bulbs support both Wi-Fi and Bluetooth, as well as 2.4 GHz and 5 GHz networks. Follow the step-by-step setup guide in the app to connect, configure and start using your smart lighting.

Package includes

- 3 Lite Bulb Moments White and Color Ambience RGB E27 bulbs
- User Manual

Product specifications

- Brand: Lite bulb moments
- Product type: Smart LED bulb
- Socket: E27
