Lite Bulb Moments smart GU10 LED spotlight RGB Wi-Fi – 3-pack

Create the right atmosphere in every room with Lite Bulb Moments GU10 smart LED lamps. This 3-pack gives you flexible white light and rich RGB color control directly from your phone, with dimming, timers, routines and voice control through Alexa and Google Home Assistant. Designed for simple installation and everyday comfort, these smart lamps make it easy to personalize your home lighting.

- White and color ambience with millions of colors
- Circadian rhythm lighting for daily wellbeing
- Wi-Fi and Bluetooth connectivity
- Dimmable lighting with timer functions
- App and voice control with TUYA, Alexa and Google Home

White and color ambience with millions of colors
Choose between clear white lighting and a full RGB color range to match the room, activity or time of day. Use warm white light for a calm evening setting, cooler tones for focus, or color lighting to create a more personal atmosphere in your home.

Circadian rhythm lighting for daily wellbeing
The built-in circadian rhythm function helps adjust the light throughout the day to support your natural rhythm. By changing intensity and color temperature in line with the time of day, the lamps can help create energizing light in the morning and softer, warmer light in the evening.

Wi-Fi and Bluetooth connectivity
Each lamp connects individually through Wi-Fi for convenient smart control via the TUYA app. Bluetooth support gives you an additional connection option during setup and daily use. The lamps support both 2.4 GHz and 5 GHz networks for flexible installation in modern homes.

Dimmable lighting with timer functions
Adjust brightness directly in the app to suit your needs, whether you want clear functional lighting or a softer ambience. Timer functions allow you to schedule the lights to turn on or off automatically, helping improve comfort, convenience and energy efficiency.

App and voice control with TUYA, Alexa and Google Home
Control your lighting from the TUYA app, where you can create scenes, routines and custom light settings. The lamps are also compatible with Amazon Alexa and Google Home Assistant, allowing you to manage your lights with simple voice commands.

Package includes

- Three Lite Bulb Moments White and Color Ambience RGB GU10 LED lamps
- Instruction manual
