Lite Bulb Moments smart light string Diode 10 m RGB Wi-Fi IP65 music sync

Create flexible, app-controlled lighting for both indoor and outdoor spaces with Lite Bulb Moments Smart string lights Diode. With Wi-Fi control through the TUYA app, voice compatibility with Alexa and Google, adjustable colours, dimming, timers and music sync, these smart string lights make it easy to set the right atmosphere for everyday use, gatherings and seasonal decoration.

- Up to +16 million colour combinations
- Full control with the TUYA app
- Music sync with built-in microphone
- Easy Wi-Fi setup with Alexa and Google compatibility
- Suitable for indoor and outdoor use

Up to +16 million colour combinations

Each light source can display a wide range of colours, giving you precise control over the look and feel of your space. Choose warm, soft tones for relaxed evenings, colourful settings for parties or seasonal colours for holidays and celebrations.

Full control with the TUYA app

Use the TUYA app to adjust brightness, change colours, set timers and create lighting scenarios directly from your phone. The string lights also include 20 pre-programmed functions that can be selected from the button on the power supply, giving you simple control even without the app.

Music sync with built-in microphone

The built-in microphone allows the lights to react to music by flashing or changing colours in rhythm with the sound. This makes the string lights suitable for parties, events or any setting where you want the lighting to follow the atmosphere in the room.

Easy Wi-Fi setup with Alexa and Google compatibility

Connect the string lights to a 2.4 GHz Wi-Fi network and control them through the TUYA app. The lights are also compatible with Alexa and Google, allowing you to use voice commands for convenient hands-free control.

Suitable for indoor and outdoor use

The lights and controller are IP65 rated, making them suitable for outdoor use in rain or snow. The power adapter is IP44 rated. The string lights should not be submerged in water for longer periods.

Package includes

- Lite Bulb Moments Smart string lights Diode
- User manual
- IP44 power adapter

Product specifications

- Brand: Lite Bulb Moments
- LED Chip Quality: Sanan-e
