Baseus Silicone Case for iPhone 11 - Pink

Give your iPhone 11 a soft, secure and stylish upgrade with the Baseus Silicone Case. Made from pacifier-grade liquid silicone, this slim and silky case offers everyday protection against scratches, bumps and fingerprints while keeping your phone's original look in view through its subtle translucent design.

- Food-grade liquid silicone material
- Convex lens protection for the camera
- Silky, thin and comfortable touch
- Soft, responsive button protection
- Translucent design that shows off your iPhone 11

Food-grade liquid silicone material
The Baseus Silicone Case is crafted from soft, pacifier-grade liquid silicone – the same type of material often used for baby pacifiers. This makes it safe, odourless and gentle to the touch while still being highly durable. The liquid silicone surface resists fingerprints and smudges, so your iPhone 11 stays clean and presentable throughout the day with minimal effort.

Convex lens protection for the camera
Your camera lenses are one of the most vulnerable parts of your phone. The convex lens protection design raises the edges around the camera module to help shield the lenses from scratches and direct contact with flat surfaces. This simple yet effective detail gives you more comprehensive protection so you can confidently place your phone down without worrying about damaging the camera.

Silky, thin and comfortable touch
The case has a slim profile that wraps snugly around your iPhone 11 without adding unnecessary bulk. Its silky, soft-touch finish makes your phone more comfortable and secure to hold, reducing the chance of slipping from your hand. Despite its thinness, the material provides reliable cushioning against everyday bumps and minor drops, balancing protection with a sleek, minimal look.

Soft, responsive button protection
Baseus has used a dedicated softening process around the button interfaces to ensure every press feels natural and precise. The covered buttons are protected from scratches, dust and impacts, while still remaining highly responsive. This design keeps your iPhone 11's side buttons looking and feeling like new, without sacrificing usability or feedback.

Translucent design that shows off your iPhone 11
The translucent finish of the case subtly reveals the original design and colour of your iPhone 11 instead of hiding it. You can clearly see the phone's contours and logo beneath the soft silicone layer, achieving a clean, modern style that enhances rather than covers up your device. It's an ideal choice if you want both protection and a look that stays true to your phone's design.
