Slim profile, fully wrapped in leather
The Mujjo Leather Case for iPhone 11 Pro Max closely follows your phone's contours, providing everyday protection without unnecessary bulk. The full leather wrap feels warm in the hand and provides a secure grip.

Soft microfiber lining for interior protection
The interior is lined with soft Japanese microfiber: a thin, strong and exceptionally lightweight fabric with a satin-like feel. It provides gentle cushioning to help protect the phone's glass and aluminium surfaces from scratches and minor impacts. The smooth lining also makes it easy to slide your phone into the case.

Responsive leather-covered buttons and carefully shaped openings
The volume and power buttons are fully covered in leather for a clean look and crisp, tactile feedback. Their profiles have been optimised and tested for reliable responsiveness in everyday use. The camera and mute switch openings taper gently inward for easy access and a smooth finish.

Raised leather bezel to help protect the screen
The leather edge rises approximately 1 mm above the glass, helping to keep the screen away from abrasive surfaces when you place your phone face down. It adds protection while maintaining the case's slim profile and clean lines.

Full-grain vegetable-tanned leather that develops a rich patina
Made from Mujjo's signature full-grain vegetable-tanned leather, the case gradually develops a unique patina with everyday use. Marks, scratches and handling add character as the colour deepens and the finish becomes richer, reflecting how you use and carry your phone.
