Twelve South SurfacePad for iPhone 12 Pro Max - Plum

SurfacePad from Twelve South is an ultra-slim leather folio for iPhone 12 Pro Max. Made from soft Napa leather, it protects the front and back from everyday scratches without adding bulk. Two card slots and full MagSafe compatibility make it a practical, lightweight alternative to a conventional case.

- Ultra-slim Napa leather folio
- Fully MagSafe compatible, even with cards inside
- Built-in wallet with room for two cards
- Everyday protection in a pocket-friendly design
- Secure, reusable adhesive that leaves no residue

Ultra-slim Napa leather folio
SurfacePad wraps the front and back of your iPhone 12 Pro Max in soft Napa leather to protect against scratches, scuffs and everyday wear. Its thin, lightweight design keeps your phone comfortable to hold and easy to slip into a pocket or bag.

Fully MagSafe compatible, even with cards inside
SurfacePad works with MagSafe charging and accessories. Cards sit inside the front cover, away from the MagSafe connection on the back of your iPhone, so there is no need to remove the cover or your cards when charging or attaching MagSafe accessories.

Built-in wallet with room for two cards
Two precision-cut slots inside the front cover hold essentials such as an ID and a payment card. Used alongside Apple Pay or other contactless payment options, they help you carry less while keeping your cards tucked inside the cover.

Everyday protection in a pocket-friendly design
SurfacePad provides a slim protective layer against contact with keys, coins and rough tabletops, as well as drips and water rings on surfaces. It is not a rugged case or a substitute for heavy-duty protection. For a hike or beach trip, you can peel it off, fit a more protective case and reapply SurfacePad afterwards.

Secure, reusable adhesive that leaves no residue
Twelve South's SurfaceGrip 2.0 reusable adhesive holds SurfacePad firmly on your iPhone 12 Pro Max. Peel it off to adjust its position or switch to another case, then reapply it when needed. The adhesive is designed to leave no sticky residue when removed.
