

Pipetto Magnetic Leather Case for iPhone 12/12 Pro with Magnetic Mount and Premium Design - Black

Pipetto Magnetic Leather Case for iPhone 12/12 Pro with Magnetic Mount and Premium Design – Magnetic mount case for iPhone 12/12 Pro combines beautiful genuine leather, clever magnetic functionality and everyday practicality in one minimalist design. Enjoy peace of mind, hands-free convenience and a premium feel every time you pick up your iPhone.

- Premium genuine leather with minimalist, premium design
- Built-in metal plate for powerful magnetic mounting
- 2-in-1 magnetic mount with car, kickstand and wall options included
- Fully compatible with both wireless and wired charging
- Clever hands-free use for calls, navigation and video viewing

Premium genuine leather with minimalist, premium design

Crafted from high-quality genuine leather, this Pipetto case is made for those who value both style and substance. The slim, minimalist profile follows the sleek lines of your iPhone 12 or 12 Pro, adding a refined, professional look without unwanted bulk. Over time, the leather develops a natural patina, giving your case a unique character while still offering everyday protection against scratches and light bumps.

Built-in metal plate for powerful magnetic mounting

Inside the case, a custom-engineered lightweight metal plate is seamlessly integrated into the design. This hidden structure keeps the exterior clean and minimal while dramatically improving functionality. The internal metal plate allows your iPhone to snap securely to the included magnetic mount, so you can attach your phone vertically or horizontally to a wide range of metal surfaces and mounts without sticking anything directly to your device.

2-in-1 magnetic mount with car, kickstand and wall options included

The included 2-in-1 magnetic mount system unlocks a versatile, hands-free experience. With three interchangeable parts, you can quickly transform it into a car vent mount, a kickstand for your desk or nightstand, or a wall mount for easy access at home. Use it on your dashboard for navigation, beside your bed as a stand, or on a wall to keep your phone visible and accessible. It is a simple, elegant solution that removes the need for separate car mounts or improvised stands.

Fully compatible with both wireless and wired charging

Unlike many magnetic cases that interfere with wireless charging, this Pipetto Magnetic Leather Case is designed to work perfectly with both wireless and wired charging. You can place your iPhone on your wireless charger without removing the case, or plug in a cable as usual. The carefully engineered internal layout ensures that the built-in metal plate does not block charging performance, so convenience and functionality work together seamlessly.

Clever hands-free use for calls, navigation and video viewing

When combined with the magnetic mount, the case makes everyday tasks easier and more comfortable. Set your iPhone up for hands-free FaceTime calls, keep navigation clearly visible in your car, or prop it up to watch videos without holding or balancing it. Whether on your desk, in your car, or by your bed, your iPhone can be securely positioned at the perfect angle, enhancing usability throughout your day.
