Premium European leather
Made from northern European hides and tanned using an environmentally friendly process, this durable, gold-rated leather develops a distinctive patina over time.

Machined aluminium camera protection
The camera surround is machined from recycled aluminium and helps protect the rear camera lenses from bumps and scratches. It matches the colour of the leather and buttons for a coordinated finish.

Responsive machined metal buttons
The machined metal side buttons provide responsive operation. They are colour-matched to the leather and designed to fit the iPhone 15 Pro Max.

More recycled materials
Mujjo is a B Corp-certified brand and has increased its use of recycled materials in this iPhone 15 Pro Max case. The metal buttons, camera surround, microfibre lining and polycarbonate shell all incorporate recycled materials while maintaining protection.
