

Enhance your iPhone experience with Mujjo's Full Leather Case for iPhone 17 Air in Basalt. Made from exclusive Velore leather, developed with innovative waterless technology and sustainable materials, this case combines luxury, protection and environmental responsibility. It is designed to deliver outstanding functionality while reflecting a minimalist aesthetic that grows more beautiful with time.

- Velore leather with DriTan™ technology
- Precision-machined metal camera ring and buttons
- Japanese microfiber lining
- MagSafe compatible
- Raised edge for extended protection of the phone screen
- B Corp durability certificate

#### Velore leather with DriTan™ technology

Experience innovation you can feel with our Velore leather, made from fine-grained Danish calfskin with the groundbreaking DriTan™ waterless technology. This advanced tanning process eliminates water waste while creating a leather with a uniquely soft feel that is both durable and more long-lasting. As the leather ages, it develops a distinctive patina that adds personality and warmth to your shell over time.

#### Precision-machined metal camera ring and buttons

The camera ring and side buttons are carefully crafted from precision-machined metal for optimal protection and responsiveness. They provide a super-satisfying click feel and enhanced durability, while preserving the sophisticated look of the case. This precision is in line with our minimalist design philosophy, where every detail serves both form and function.

#### Japanese microfiber lining

Inside the case, you'll find a refined interior lined with premium Japanese microfiber. This silky-soft recycled fabric is incredibly lightweight and has a luxurious finish that wraps your iPhone 17 Air in comfort and protection. The case ensures your phone gets the same attention to detail as the outside.

#### MagSafe compatible

Stay connected and charged without the hassle. The case integrates high-performance magnetic technology for fast wireless charging and seamless compatibility with all MagSafe accessories. You get the convenience of modern technology while maintaining a sleek and sophisticated look.

#### Raised edge for added protection of your phone's screen

A carefully crafted, 1mm raised leather edge protects the screen from scratches and bumps, while covering the bottom without blocking the charging port. The thoughtful design provides all-around protection while maintaining the case's clean, unbroken aesthetic.

#### Even more sustainable

B Corp certification means we're always looking for new ways to improve sustainability. This iPhone 17 Air case is filled with recycled materials, including the metal buttons, camera ring, microfiber lining, and polycarbonate shell that the leather is wrapped around - leaving a smaller environmental footprint.

#### Package includes:

- 1x Mujjo Full Leather Case for iPhone 17 Air - Basalt
- 1x User manual

#### Product specifications:

- Color: Basalt
- Velore leather made from Danish calfskin with water-free DriTan™ technology
