

Elevate your iPhone experience with Mujjo's Full Leather Case for iPhone 17 in Basalt. Crafted from premium Velore leather using innovative waterless technology and sustainable materials, this case combines luxury, protection, and environmental responsibility. It's designed to deliver exceptional functionality while reflecting a minimalist aesthetic that evolves beautifully over time.

- Velore Leather with DriTan™ Technology
- Machined-Metal Camera Bump & Buttons
- Japanese Microfibre Lining
- MagSafe Compatible
- Screen Protection with Raised Bezel
- B Corp sustainability certificate

Velore Leather with DriTan™ Technology

Experience innovation you can feel with our Velore leather, crafted from fine-grain Danish calfskin using revolutionary waterless DriTan™ technology. This advanced tanning process eliminates water waste while creating leather with a uniquely smooth touch that's both durable and sustainable. As it ages, the leather develops a distinctive patina, adding character and warmth to your case over time.

Machined-Metal Camera Bump & Buttons

The camera bump and side buttons are meticulously crafted from machined metal for optimal protection and responsiveness. They provide super-satisfying clickiness and enhanced durability while maintaining the case's refined aesthetic. This precision engineering aligns with our minimalist design philosophy, ensuring every detail serves both form and function.

Japanese Microfibre Lining

Inside the Full Leather Case, you'll find an elevated interior lined with premium Japanese microfibre. This satin-soft recycled fabric is incredibly lightweight with a luxurious finish that cradles your iPhone 17 in comfort and protection. The refined lining ensures your phone is treated with the same attention to detail as the exterior.

MagSafe Compatible

Stay connected and powered up with ease. The Full Leather Case integrates high-performing magnetic technology for fast wireless charging and seamless compatibility with all MagSafe accessories. This feature allows you to enjoy the convenience of modern tech while maintaining an elegant, sophisticated look.

Screen Protection with Raised Bezel

A precisely crafted 1 mm raised leather bezel guards your screen from scratches and impacts while covering the base without obstructing the charging port. This thoughtful design provides comprehensive protection while maintaining the case's clean, uninterrupted aesthetic.

Even More Sustainable

B Corp certification means we're always looking for new ways to improve sustainability. This iPhone 17 case is packed with recycled materials, including the metal buttons, camera bump, microfibre lining, and polycarbonate shell around which the leather is wrapped, creating a smaller environmental footprint.

Package Includes
