- Raised bezel for screen protection
- B Corp certification

Velore leather with DriTan™ technology
Made from fine-grain Danish calfskin, Velore leather is tanned using waterless DriTan™ technology to eliminate water waste. Smooth to the touch and durable, it develops a distinctive patina that adds warmth and character with use.

Machined metal camera bump & buttons
The machined metal camera bump helps protect the camera, while the side buttons deliver a crisp, responsive click. Both add durability and complement the case's minimalist design.

Japanese microfibre lining
The interior is lined with premium Japanese microfibre. This lightweight, recycled fabric has a satin-soft finish that cushions and protects your iPhone 17 Air.

MagSafe compatible
Integrated high-performance magnets support fast wireless charging and ensure compatibility with all MagSafe accessories.

Raised bezel for screen protection
A 1 mm raised leather bezel helps protect the screen from scratches and impacts. The case also covers the base of your phone without obstructing the charging port.

Recycled materials and B Corp certification
Mujjo is B Corp certified and continues to work towards greater sustainability. The case uses recycled materials in its metal buttons, camera bump, microfibre lining and leather-wrapped polycarbonate shell to help reduce its environmental footprint.
