It's designed to deliver exceptional functionality and protection while reflecting a minimalist aesthetic.

- Premium Velore Leather
- Machined-Metal Buttons
- Machined-Metal Camera Bump
- Japanese Microfibre Lining
- MagSafe Compatible
- B Corp sustainability certificate

Premium Velore Leather
Experience the pinnacle of luxury with our Mujjo Leather Case for iPhone 18 Pro / 17 Pro, crafted from fine-grain Danish calfskin. This leather is tanned using the revolutionary waterless DriTan™ technology, eliminating water waste while creating an exceptionally smooth touch. As it ages, the Velore leather develops a rich patina that deepens with time, adding unique character to your case.

Machined-Metal Buttons
The side buttons are meticulously crafted from machined metal for optimal responsiveness. They provide a super-satisfying clickiness and are dyed to match the rich Tan leather. This attention to detail aligns with our minimalist design philosophy. Cases for the iPhone 17 models feature precise, machined-metal buttons that enhance both durability and responsiveness.

Machined-Metal Camera Bump
A machined recycled aluminum camera bump safeguards the rear camera lenses with elevated protection. This beautifully designed piece of hardware not only protects the camera but enhances the case's overall durability. The 1mm raised leather bezel guards your screen while the aluminum provides robust protection against bumps and scratches.

Japanese Microfibre Lining
Inside the Mujjo Leather Case, you'll find a lining made from premium Japanese microfibre. This slim, super-soft recycled fabric is incredibly lightweight with a satin-like finish. It offers luxurious padded comfort for your iPhone 18 Pro / 17 Pro and ensures that your phone is cradled in elegance and protection.

MagSafe Compatible
Stay connected and powered up with ease. The Mujjo Leather Case integrates high-performing magnetic technology for fast wireless charging without obstructing the charging port. This seamless compatibility with all MagSafe accessories allows you to enjoy modern convenience while maintaining a stylish look.

Even more sustainable
B Corp certification means we're always looking for new ways to improve sustainability. These new iPhone cases are packed with recycled materials, including the metal buttons, camera bump, microfibre lining, and polycarbonate shell around which the leather is wrapped—all for a smaller environmental footprint.
