UAG Plyo case for iPhone 17 - Ice/clear

Protect your iPhone 17 without hiding it. The Urban Armor Gear Plyo Ice case blends rugged, military-tested drop protection with a crystal clear, anti-yellowing finish that lets your device shine through. Lightweight, slim and built for everyday impact, it delivers serious defense without sacrificing style or usability.

- Crystal clear, anti-yellowing rugged protection
- Air-soft corners for superior impact cushioning
- Raised edges and armored shell for 360-degree defense
- Wireless charging and Apple Pay compatible
- Featherlight design with secure lanyard anchor points

Crystal clear, anti-yellowing rugged protection
The Plyo Ice case is designed to showcase your iPhone 17 while keeping it safe from everyday bumps and drops. Its transparent backplate is engineered with anti-yellowing properties to stay clear for longer, so your phone's original color continues to stand out. The combination of robust materials and minimalist design gives you reliable protection that still looks clean and modern.

Air-soft corners for superior impact cushioning
Impact energy is absorbed where it matters most: the corners. Air-soft cushioned corners compress on impact to reduce the shock that reaches your device, especially during unexpected drops on hard surfaces. This smart construction helps protect vulnerable edges and corners of your iPhone 17 while keeping the case slim and pocket-friendly.

Raised edges and armored shell for 360-degree defense
A tough, armored shell and impact-resistant soft core work together to protect your phone from all sides. The raised perimeter around the display and camera helps keep screens and lenses away from flat surfaces, reducing the risk of scratches and scuffs. Integrated scratch-resistant skid pads add extra grip and durability, helping your device stay secure whether on a desk, in your hand, or in your bag.

Wireless charging and Apple Pay compatible
Keep your routine seamless. The Plyo Ice case is compatible with most third-party wireless chargers, so you can power up without removing the case. It is also designed to work smoothly with Apple Pay, ensuring contactless payments remain fast and reliable while your device stays fully protected.

Featherlight design with secure lanyard anchor points
Heavy-duty protection does not have to feel heavy. The Plyo Ice case uses a lightweight construction that combines a TPU shock-absorbing frame with a polycarbonate backplate to keep weight low without compromising strength. Integrated lanyard anchor points and lanyard card compatibility let you attach a wrist strap or lanyard (sold separately) for extra security on the move, making it ideal for travel, commuting, or outdoor use.

Package includes:

- Urban Armor Gear Case for iPhone 17 Plyo - Ice/clear
