

Just Mobile Xkin Tempered Glass for iPhone SE with Blue Light Filter and 9H Hardness is the high-clarity screen protector that shields your display while helping your eyes and sleep. Ultra-thin and easy to apply, it delivers premium scratch and impact protection with coatings that resist smudges, oil, and water.

- Blue light and UV filtering for eye comfort and better sleep
- 9H tempered glass for superior scratch and impact resistance
- Ultra-thin, self-adhesive design for a seamless fit
- Oleophobic and hydrophobic coating resists smudges, oil, and water
- Easy to clean and keeps your screen pristine

Blue light and UV filtering for eye comfort and better sleep

Reduce eye strain during long screen sessions and help maintain healthy melatonin levels at night. Xkin's advanced filter cuts blue and ultraviolet light from your iPhone SE display, so you can scroll, stream, and read with greater comfort and fewer sleep disruptions.

9H tempered glass for superior scratch and impact resistance

Crafted from premium tempered glass rated at 9H hardness, Xkin forms a tough barrier against keys, coins, and everyday knocks. It helps absorb impacts and prevents scratches, keeping your iPhone SE screen looking like new for longer.

Ultra-thin, self-adhesive design for a seamless fit

The ultra-thin profile preserves original touch sensitivity and display clarity while blending neatly with your phone's edges. A self-adhesive backing simplifies installation, giving you a bubble-free, secure fit in moments.

Oleophobic and hydrophobic coating resists smudges, oil, and water

A high-grade surface treatment repels fingerprints, skin oils, and splashes, so your screen stays clearer between wipes. Enjoy smooth gliding and fewer visible marks throughout the day.

Easy to clean and keeps your screen pristine

Thanks to its advanced coating, residue lifts off quickly with a simple wipe. Spend less time polishing and more time using your phone with a screen that stays clean and responsive.

Package includes
