

Pipetto iPhone XS Max Magnetic Folio Leather Case with Wireless Charging - Navy blue

Pipetto Magnetic Folio Leather Case for iPhone XS Max with Wireless Charging and Magnetic Shell – 2-in-1 leather wallet case for iPhone XS Max is designed to streamline your daily life without sacrificing style or protection. Handcrafted from genuine leather and engineered for full wireless compatibility, it gives you the flexibility of a slim magnetic shell and the practicality of a wallet folio in one premium, compact solution.

- 2-in-1 magnetic design: slim shell and detachable leather wallet folio
- Fully compatible with wireless charging, Apple Pay and contactless payments
- Integrated magnetic shell works with magnetic car and wall mounts
- Premium 100% genuine leather wallet with multiple card and cash pockets
- Built-in stable horizontal stand for comfortable hands-free viewing

2-in-1 magnetic design: slim shell and detachable leather wallet folio

This case is built as a true 2-in-1 solution. The inner PC shell securely protects your iPhone XS Max and attaches magnetically inside the leather folio. When you want a slimmer profile, simply remove the shell and leave the wallet behind. When you need everything in one place, snap it back into the folio to carry your phone, cards and cash together. It's a practical answer for anyone who wants both a functional wallet case and the simplicity of a slim protective shell, without having to switch cases.

Fully compatible with wireless charging, Apple Pay and contactless payments

The inner magnetic shell is engineered to be both magnetic and fully compatible with wireless charging and contactless technologies at the same time. You can drop your iPhone onto any standard wireless charger without removing the case, and continue to use Apple Pay and other contactless payments as normal. Unlike many magnetic cases that force you to choose between magnets or wireless features, this design is carefully crafted to support both seamlessly.

Integrated magnetic shell works with magnetic car and wall mounts

Thanks to a hidden internal metal panel inside the shell, your iPhone can quickly attach to almost any magnetic mount. Snap it onto your car dashboard mount for navigation, or onto a wall or desk mount for hands-free FaceTime and video watching. The strong magnetic connection holds your device securely in place while keeping the case slim and unobtrusive, so you can move between daily activities without constantly changing accessories.

Premium 100% genuine leather wallet with multiple card and cash pockets

The outer folio is handcrafted from 100% genuine leather, giving it a premium look and feel that ages beautifully over time. Inside, it's thoughtfully laid out with two card slots, a dedicated ID window and an additional internal pocket for extra cards, cash or receipts. This lets you replace your traditional wallet on days when you want to travel lighter, while still keeping your essentials organised and close at hand.

Built-in stable horizontal stand for comfortable hands-free viewing

The rear fold of the folio is designed to convert into a stable horizontal stand, ideal for watching videos, making video calls or browsing the web. It's especially useful on soft or unstable surfaces such as a bed, sofa or train seat, where most cases struggle to stay upright. Fold it back into place when you are done, and the case returns to its slim, protective profile without any extra parts or attachments.

Package includes

- Pipetto Magnetic Folio Leather Case for iPhone XS Max (leather folio with removable internal magnetic shell) - Navy Blue

Product specifications
