A slim everyday wallet for your iPhone
The integrated leather pocket on the back securely holds 2 to 3 bank, ID or travel cards. Keep your essentials within easy reach without adding unnecessary bulk to your pocket or bag.

Premium Ecco leather that develops a rich patina
The case is wrapped in premium vegetable-tanned Ecco leather from the Netherlands, selected for its durability and luxurious feel. With daily use, it develops a rich patina that gives each case its own character. The leather is Gold rated by the Leather Working Group for environmental production standards.

Machined metal buttons for crisp, responsive control
Machined metal buttons provide crisp, tactile feedback and align precisely with your iPhone 14 Pro’s controls. They are dyed to match the leather for a consistent, understated finish.

Raised edges to help protect the screen and camera
The slim case helps protect your iPhone 14 Pro from everyday bumps and scratches. A 1 mm raised leather bezel helps keep the screen away from abrasive surfaces when you place your phone face down. A raised edge around the rear camera helps shield the protruding lenses, while the covered base adds protection without blocking the speakers or charging port.

Japanese microfibre lining for soft, lightweight cushioning
The interior is lined with fine Japanese microfibre, a soft, strong and lightweight fabric with a satin-like finish. The snug, padded lining cushions your iPhone 14 Pro and helps prevent scratches.
