Mujjo European Leather Case for iPhone 16 Pro Max with MagSafe - Tan

Mujjo's Leather Case for iPhone 16 Pro Max in Tan combines premium European leather, durable construction and a minimalist design. Made with recycled materials, it provides everyday protection, responsive metal buttons and MagSafe compatibility.

- Premium European leather
- Machined metal buttons
- Machined metal camera bump
- Japanese microfibre lining
- MagSafe compatible
- B Corp certification

Premium European leather
Made from northern European hides, the leather is tanned in the Netherlands using the DriTan process, which reduces water waste and chemical use. Durable and responsibly produced, it develops a unique patina over time, giving your case individual character.

Machined metal buttons
The machined metal side buttons provide responsive feedback and a satisfying click. Coloured to match the Tan leather, they complement the case's minimalist design. The iPhone 16 Pro Max case includes a mute button and a one-piece volume button.

Machined metal camera bump
A machined recycled aluminium camera bump protects the rear camera lenses and adds durability, providing robust protection against bumps and scratches that can damage leather.

Japanese microfibre lining
The interior is lined with premium Japanese microfibre. Slim, soft and lightweight, this recycled fabric has a satin-like finish and provides cushioning and protection for your iPhone 16 Pro Max.

MagSafe compatible
Built-in magnetic technology supports fast wireless charging and compatibility with all MagSafe accessories.

A focus on sustainability
Mujjo is B Corp certified and continues to seek ways to improve sustainability. The case uses recycled materials in its metal buttons, camera bump, microfibre lining and the polycarbonate shell beneath the leather.
