Built-in Card Pocket
The leather pocket holds 2–3 bank, ID or travel cards, keeping your essentials together so you can carry less.

Premium Eco Leather
Crafted from premium Dutch Eco leather that is vegetable-tanned and gold-rated for environmental standards, the case resists wear and tear and develops a natural patina with use.

Camera and Screen Protection
A raised edge around the rear camera helps protect the protruding lenses, while a leather bezel helps shield the screen from abrasive surfaces. The case also covers the base of the phone while leaving the speakers and charging port accessible.

Machined Metal Buttons
Machined metal side buttons provide responsive operation and a satisfying click. Colour-matched to the leather, they complement the case's minimalist design.

Japanese Microfibre Lining
The interior is lined with strong, lightweight Japanese microfibre for soft, padded protection.
