Slim profile, fully wrapped in leather
The Mujjo Leather Case for iPhone 11 Pro Max is fully wrapped in premium full-grain leather and closely follows your phone's contours. The leather feels warm in the hand and improves grip, while the slim, minimalist design provides everyday protection without unnecessary bulk.

Soft, premium microfiber lining
The interior is lined with premium Japanese microfiber, a thin, strong and lightweight fabric with a satin-like finish. The soft lining cushions your phone and helps protect its glass and aluminium surfaces from scratches and minor impacts. Its smooth texture also makes it easy to slide your iPhone 11 Pro Max into the case.

Responsive leather-covered buttons and tapered camera opening
The volume and power buttons are fully covered in leather for a clean finish and crisp, tactile feedback. Their profiles have been optimised and tested for everyday responsiveness. The camera and mute switch openings taper gently inwards for easy access and a smooth, consistent finish.

Raised leather bezel to help protect the screen
The leather edge rises approximately 1 mm above the glass, helping to keep abrasive surfaces away from the screen when you place your phone face down. This subtle lip adds protection while preserving the case's slim profile and clean lines.

Full-grain vegetable-tanned leather that develops a rich patina
Made from Mujjo's signature full-grain vegetable-tanned leather, the case develops a distinctive patina with daily use. Marks, scratches and handling add character as the colour deepens and the finish becomes richer, giving each case a look that reflects how you use and carry your phone.
