100% Compostable

Pela's Clear Case brings advanced protection to your iPhone 13 Pro Max while remaining 100% compostable. Made from a blend of Flax shive and plant-based biopolymer, this eco-conscious case breaks down naturally, unlike conventional plastic cases that linger in landfills for centuries.

Supports Ocean Cleanup Initiatives

Every purchase of a Pela Clear Case contributes to ocean cleanup and preservation efforts. Pela donates a percentage of every sale to initiatives dedicated to removing plastic waste from our oceans, making each case you buy a step toward a cleaner planet.

Biodegradable & Eco-Friendly

Crafted from sustainable resources, the Pela Clear Case is both biodegradable and eco-friendly. The use of plant fibers and compostable bio-polymers ensures that the case won't harm the environment, aligning perfectly with your commitment to sustainability.

Screen Protection Guarantee

We stand by the durability of our cases with a unique Screen Protection Guarantee. If your screen cracks while using a Pela Case (excluding the Slim version) and our liquid screen protector, Pela will cover the cost of the screen repairs.

Durable & Protective Design

Engineered with a rigid back and impact-absorbent edges, the Pela Clear Case provides robust protection against impacts, drops, and scratches. Meticulously designed with precision cuts around speakers, chargers, and buttons, it also features wrap-around edges to shield your phone's front. The case offers a soft feel with a slight grip, ensuring a secure yet comfortable hold.
