Premium nappa leather with a soft microfiber lining
SurfacePad is made from soft, premium nappa leather that feels warm and comfortable in your hand. The supple leather adds grip and a refined finish, while the soft microfiber lining helps protect your iPhone from scratches.

Ultra-thin, lightweight protection for the front and back
The folio covers your screen and the back of your iPhone, helping protect both from contact with keys and coins and from everyday wear in a pocket or bag. Its slim, lightweight design slips easily into a pocket or clutch, adding little to your phone's size and weight.

Built-in stand for comfortable hands-free viewing
Fold the back of SurfacePad to prop your iPhone 6/6s Plus at a comfortable viewing angle. The integrated stand is quick and easy to set up for watching videos, making video calls, browsing or reading hands-free.

Two interior card slots for everyday essentials
Two slim slots inside the front cover hold essentials such as an ID, travel card or bank card, so you can carry less when you do not need a full wallet. The slots are discreetly integrated into the cover to keep the profile slim.

Tailored fit for iPhone 6/6s Plus, available in four colours
SurfacePad is tailored for iPhone 6 Plus and iPhone 6s Plus, leaving the buttons, ports and camera fully accessible. It follows your iPhone's shape while adding grip and protection. The range is available in Black, Red, White and Camel; this version is White. It does not fit iPhone 7 Plus.
