

UAG Scout for PIXEL 10A - Ash

Protect your phone without adding unnecessary bulk. The Urban Armor Gear Scout series combines lightweight TPU construction with an impact-resistant core, a secure textured grip and raised edges to help protect your screen and camera during everyday use.

- Lightweight construction with impact protection
- Textured grip for secure handling
- Raised screen and camera protection
- Responsive buttons for easy control
- Lanyard attachment options for added security

Lightweight construction with impact protection

The Scout case combines a durable TPU construction with UAG's signature armor shell and an impact-resistant soft core. An internal hex pattern helps absorb shocks, while chamfered corners provide added drop protection. The case meets military drop-test standards under MIL STD 810G 516.6.

Textured grip for secure handling

Textured bumpers give you a firmer hold on your phone, helping reduce accidental slips. The rugged grip makes handling more secure, whether you are at home, at work or on the move.

Raised screen and camera protection

A raised screen surround helps protect your phone's glass from contact with surfaces when placed face down. A raised camera bezel helps keep your lenses clear of surfaces to reduce everyday scratches.

Responsive buttons for easy control

Oversized tactical buttons make your phone's controls easy to locate and press. Each button delivers a crisp, tactile response for confident everyday use.

Lanyard attachment options for added security

Integrated lanyard anchor points and compatibility with lanyard cards give you more ways to keep your phone close. Attach a compatible lanyard for added security when carrying or using your phone on the go. Lanyard not included.
