SATECHI

Satechi ChargeView 240W Desktop Charger - Space Black

The Satechi ChargeView™ 240W Desktop Charger is a refined charging solution created for modern, high-demand workspaces. With six USB-C ports, advanced GaN technology and a built-in LCD display showing real-time wattage for each port, it delivers efficient power to your laptop, tablet, smartphone and accessories from a single, desk-friendly unit. Its Space Black finish and dual-orientation stand allow it to sit vertically or horizontally, helping you keep cables tidy and your workspace organised.

- 240W total output for laptops, tablets, phones and accessories
- Real-time digital display showing wattage per USB-C port
- Six USB-C ports with intelligent power distribution
- Advanced GaN technology for efficient and stable charging
- Dual-orientation stand for vertical or horizontal desk placement

240W total output for laptops, tablets, phones and accessories
With up to 240W of total power across six USB-C ports, the ChargeView™ comfortably handles high-demand setups — multiple laptops, tablets, phones and accessories charging at the same time. One charger replaces several adapters, giving you a single, capable hub that reduces clutter and keeps your desk organised.

Real-time digital display showing wattage per USB-C port
The integrated LCD shows live wattage for each port individually, so you can see exactly how much power each connected device is drawing and how power is distributed across them. This gives you clear insight into how your devices are charging without any guesswork.

Six USB-C ports with intelligent power distribution
Ports C1 and C2 support USB PD 3.2 with AVS (Adjustable Voltage Supply) for the fastest possible charge to the newest iPhones, while ports C3 through C6 deliver PPS fast charging for compatible Samsung Galaxy and Google Pixel devices. All six ports charge simultaneously, and the charger automatically renegotiates power across the active ports based on each device's needs.

Advanced GaN technology for efficient and stable charging
Next-generation GaN architecture delivers high output in a compact, fanless body while running cooler and more efficiently than traditional chargers — sustained desktop charging without adding noise to your workspace. Built-in safeguards monitor overcurrent, overvoltage and temperature to keep your devices safe during daily use.

Dual-orientation stand for vertical or horizontal desk placement
The included precision dual-orientation stand lets you position the charger vertically to save space or horizontally for cleaner cable management, so you can match the layout to your cable flow and desk footprint. Combined with the Space Black finish, the ChargeView™ is designed to sit on your desk rather than be hidden beneath it.

Package includes

- 1x Satechi ChargeView™ 240W Desktop Charger - Space Black
- 1x Precision Dual-Orientation Stand
- 1x 1.5 m C7 power cable (EU)
- 1x User manual

Product specifications

- Brand: Satechi
- Product name: ChargeView™ 240W Desktop Charger
- Total output: up to 240 W
- Ports: 6 USB-C ports
- Ports C1, C2: USB PD 3.2 with AVS
- Ports C3-C6: PPS fast charging
- Charging technology: GaN
- Supported standards: USB PD 3.2, AVS, PPS
- Compatibility: USB-C devices that support USB Power Delivery, including laptops, tablets and smartphones
- Plug type: EU Type C
- Colour: Space Black
- Display: Real time LCD power display
- Stand orientation: Vertical or horizontal
- Safety protection: Overcurrent, overvoltage, and temperature monitoring
- Product dimensions: 11 x 9.2 x 3.8 cm
- Package dimensions: 15 x 4.8 x 18 cm
- Power cable length: 1.5 m
