

Usbepower Dual USB 2.1A Power Adapter is a compact wall charger designed to power two devices at the same time. With smart power management and certified safety, it's a dependable everyday solution for charging phones, tablets, and other USB-powered devices at home or while traveling.

- Charge two devices at the same time
- Smart power distribution for efficient charging
- Travel-friendly 2-in-1 pocket charger design
- Use as a wall dock to hold your device
- SGS-certified protection for safe charging

Charge two devices at the same time

Two USB ports let you charge a pair of devices simultaneously, such as a phone and tablet, or two phones. It's a practical option when outlets are limited at home, at the office, or while traveling.

Smart power distribution for efficient charging

The dynamic charging system detects the connected devices and manages the available power accordingly. The internal chipset handles power management and balances output between the ports to support stable, consistent charging.

Travel-friendly 2-in-1 pocket charger design

Designed for mobility, this compact adapter helps reduce what you need to carry. The 2-in-1 concept is built to optimize your plugs with a single, versatile charging solution that works across common travel power standards.

Use as a wall dock to hold your device

When plugged into a wall outlet, the adapter can also function as a simple docking point to support your device while it charges. This keeps your device more accessible and helps reduce cable strain in tight spaces.

SGS-certified protection for safe charging

Certified by SGS, the adapter is built to help protect against issues such as over-voltage. Premium components and secure charging design support safe everyday use with compatible devices.

Package includes

- 1 x Usbepower Dual USB 2.1A Power Adapter - Blue

Product specifications

- Brand: usbepower
- Colour: Blue
- Input: AC 100 to 240 V
