

Make charging your Apple devices smarter, smaller and more stylish. ButterFly SE from Twelve South is an ultra-compact 2-in-1 charger that easily slips into your bag, unfolds in seconds, and charges your iPhone and Apple Watch - or AirPods - simultaneously. With its modern Coastal Blue finish, magnetic Qi2 charging and built-in stand function, it's the perfect travel companion and everyday charging solution.

- Ultra-compact, foldable design
- Dual magnetic Qi2 chargers for simultaneous charging
- Soft, non-slip finish in Coastal Blue
- Hands-free viewing stand for iPhone and Apple Watch
- Wide compatibility with iPhone, Apple Watch and AirPods

Ultra-compact, foldable design

ButterFly SE is designed to go everywhere with you. It's about the size of a double-filled cookie and fits easily in your pocket, purse or computer bag. When you arrive, just unfold it to reveal two perfectly aligned magnetic charging surfaces. Strong integrated magnets keep the charger securely folded during transportation, so it stays neat and protected when you're on the move. Whether you're traveling for work, going to a café, or moving between rooms at home, ButterFly SE makes it easy to bring reliable charging with you.

Dual Qi2 magnetic chargers for simultaneous charging

Stay charged without having to juggle multiple chargers or cables. ButterFly SE features two high-performance Qi2 magnetic chargers designed to charge your iPhone and Apple Watch simultaneously. The precise magnetic alignment gives you an efficient and safe charging experience every time, so you can drop your devices on the charger and trust them to charge quickly and safely. You can also place your AirPods with wireless charging case on the magnetic Qi2 charger to keep them charged along with your other devices.

Soft, non-slip surface in Coastal Blue

ButterFly SE combines great performance with a premium, modern look. The luxurious soft-touch Coastal Blue surface feels soft in the hand and looks great on any nightstand, desk or hotel bedside table. The non-slip surface helps keep your iPhone, Apple Watch and AirPods securely in place while charging, reducing slips and misalignment. A matching braided USB-C charging cable completes the clean, coordinated design so your setup looks as good as it works.

Hands-free display stand for iPhone and Apple Watch

ButterFly SE is more than just a charger - it's also a smart stand. Fold and position it to create a hands-free angle for your iPhone, perfect for streaming, FaceTime calls or StandBy mode while your phone charges. The magnetic Apple Watch Charger can be tilted up to bedside table position so you can easily see the time and alarms next to the bed. At home, in the office, or in a hotel room, ButterFly SE gives you a convenient and flexible way to view your screens while they charge.

Wide compatibility with iPhone, Apple Watch and AirPods

Designed specifically for Apple users, ButterFly SE supports all iPhone models with MagSafe from iPhone 12 to iPhone 16, including the Mini, Pro and Max versions. It works with all Apple Watch series, from Series 1 to Series 10, as well as Apple Watch Ultra 1 and 2 and Apple Watch SE. AirPods Pro and AirPods with a wireless charging case are also supported, making ButterFly SE a compact all-in-one solution for your daily Apple charging needs.

Package includes
