- Incorporated with two USB-C PD ports, two USB-A ports, & a Qi charger.
- Ensures efficient and safe charging with CE & ETL certifications.
- Provides a designated Qi wireless charging pad for seamless charging.
- Organize and manage your space by eliminating scattered cables.

Simultaneously charge up to five devices

The Satechi Dock5 is more than just a charger. It's a central power hub designed to power up to five USB devices simultaneously including two USB-C PD and USB-A ports, and a dedicated Qi wireless charging pad. Never worry about a device being left without power.

Incorporated with USB-C PD ports, USB-A ports, & a Qi Charger

With modern technology requiring different types of inputs, the Satechi Dock5 has you covered. Two quick-charging USB-C PD ports and two USB-A ports offer utmost versatility while the dedicated Qi wireless charging pad caters for devices enabled with wireless charging.

Ensures Efficient & Safe Charging

Safety and efficiency have been prioritized in the design of the Satechi Dock5 Charging Station. With CE & ETL certifications, you rest safe knowing your prized electronics are charging in a secure environment.

Provides a Designated Qi Wireless Charging Pad

The Dock5 features a dedicated Qi wireless charging pad; thus, if your device is Qi-enabled, place it on the pad and charging commences instantly. It's simple, seamless, and shockingly hassle-free. The charging speed goes up to 10W.

Organize Your Space

The Dock5 doesn't just charge your electronics; it organizes them, too. No more cluttered desks or counters, just an organized space with everything in its place. Perfect for entryways, kitchen counters, workspaces, classrooms and more, it keeps your electronics and space neat.
