Twelve South PowerPic Mod - The Frame that wirelessly charges your phone - Black

The Twelve South PowerPic Mod in Black combines a wireless charger with a photo frame for your home. Add a favourite photo or design to make it your own, and charge your compatible smartphone without plugging a cable into it.

- Photo frame design that complements your home
- Compatible with all smartphones that support wireless charging
- Customisable frame to match your style
- Easy one-handed phone removal
- 5W, 7.5W and 10W wireless charging outputs

Designed for Your Home
PowerPic Mod features a lucite frame that holds a 10 x 15 cm photo. Place it on your desk, bedside table or kitchen counter to use it as both a wireless charger and a photo display.

Broad Compatibility
PowerPic Mod charges all smartphones that support wireless charging, including MagSafe and non-MagSafe iPhones and compatible Android phones. iPhone 14–16 Pro Max models must be placed in landscape orientation. It also supports AirPods Pro Wireless Charging Cases (1st and 2nd generation).

Customisable Frame
Choose a personal photo or a design that complements your interior, and change it whenever you want a fresh look.

One-Handed Phone Removal
Lift your phone off PowerPic Mod with one hand when you need to check a message or head out.

Wireless Charging Performance
PowerPic Mod supports 5W, 7.5W and 10W wireless charging outputs. It operates at 110–205 kHz and uses a coil antenna, with a charging efficiency of ?72%.

Package includes

- Twelve South PowerPic Mod - The Frame that Wirelessly Charges Your Phone - Black
- PowerPic Base
- 1.5 m USB-C to USB-C cable
