

Twelve South PowerPic Mod - The Frame that wirelessly charges your phone - Black

Experience wireless charging with elegance thanks to the Twelve South PowerPic Mod - The Frame that wirelessly charges your phone - Black. This is not just a wireless charger; it's a statement piece that enhances the ambience of your room while offering functionality and diverse compatibility. Say goodbye to conventional chargers and embrace the future with PowerPic Mod.

- A revolutionary design that integrates with your home decor
- Universally compatible with all wireless-charging smartphones
- Customizable frame to match your style
- Convenient one-handed phone removal
- State-of-the-art technical specifications for fast charging

Revolutionary Design

The Twelve South PowerPic Mod elevates charging to an art form. Its sophisticated lucite frame can hold any 10x15 cm photo, blending seamlessly into your personal space while serving as an innovative charging solution. Whether you place it on your desk, nightstand, or kitchen counter, this elegant charger doubles as a modern décor item, transforming the conventional into the extraordinary.

Universal Compatibility

Gone are the days of worrying about the right charger for your phone. The Twelve South PowerPic Mod is designed to wirelessly charge any smartphone, whether MagSafe, non-MagSafe, or Android. Its versatility ensures that you or your guests can easily charge any compatible device without hassle.

Customizable Frame

Express your individuality with Twelve South PowerPic Mod's customizable frame. Swap in a personal photograph or choose a design that complements your interior - the choice is yours. This feature allows the wireless charger to be more than just a functional device; it is also a personal statement piece that reflects your taste and style.

Convenient One-Handed Phone Removal

The PowerPic Mod is specifically engineered for ease of use, enabling you to remove your phone effortlessly with just one hand. Whether you're checking messages or need to grab your device and go, this sleek charger ensures your phone is always accessible and ready when needed.

State-of-the-Art Technical Specifications

With high-powered wireless charging capabilities, the Twelve South PowerPic Mod doesn't compromise performance. This charger offers a range of outputs, including 5W, 7.5W, and 10W, and is equipped to deliver fast and efficient charging. Its advanced technology ensures that your phone is powered up quickly, using an operation frequency of 110–205 KHZ and a coil antenna with a charging efficiency of 72%.
