TENC technology that protects for real
Engineered with Just Mobile's TENC protective technology, this case provides dependable impact and scratch resistance in a minimalist form. It's built to handle daily wear, helping your iPhone stay pristine without compromising on style or feel.

Super slim 0.6 mm design
At just 0.6 mm thin, the Slim Fit Case hugs the contours of your iPhone 14 Pro Max so it feels almost bare, yet confidently protected. The ultra-thin profile slides easily into pockets and doesn't add unnecessary weight or bulk.

Keeps the original iPhone look with a frosted finish
The refined frosted finish lets your iPhone's design shine through while resisting fingerprints and smudges. It's the sleek, understated way to protect your device and maintain its premium appearance.

MagSafe and wireless charging compatible
Designed to work seamlessly with MagSafe accessories and all standard Qi wireless chargers. Keep your charging and accessory experience smooth—no need to remove the case.

Raised camera frame and covered buttons for full protection
A raised frame around the camera safeguards the lenses on flat surfaces, while covered buttons feature deep cutouts for a responsive, tactile click. Together, they deliver complete everyday protection where it matters most.
