Mujjo Leather Case for iPhone 16 Pro – MagSafe & Metal Buttons - Black

Mujjo's Leather Case for iPhone 16 Pro in Black combines premium European leather with recycled materials in a durable, protective design. Metal details and a minimalist finish complement the leather, which develops a distinctive patina over time.

- Premium European leather
- Machined metal buttons
- Machined metal camera bump
- Japanese microfibre lining
- MagSafe compatible
- B Corp certification

Premium European leather
Crafted from northern European hides, the leather is tanned in the Netherlands using the DriTan process to reduce water waste and chemical use. The durable leather develops a unique patina with age, adding character to your case.

Machined metal buttons
The machined metal side buttons offer responsive operation and a satisfying click. Dyed to match the black leather, they complement the case's minimalist design. Cases for iPhone 16 Pro models include a mute button and a one-piece volume button.

Machined metal camera bump
A machined recycled aluminium camera bump protects the rear camera lenses and adds durability. Aluminium provides robust protection against bumps and scratches in an area where leather can be vulnerable to damage.

Japanese microfibre lining
The premium Japanese microfibre lining cushions your iPhone 16 Pro. This thin, soft recycled fabric is lightweight and has a satin-like finish.

MagSafe compatible
Built-in magnetic technology supports fast wireless charging and compatibility with all MagSafe accessories.

Recycled materials and B Corp certification
Mujjo is B Corp certified and continues to work towards improved sustainability. The case uses recycled materials in its metal buttons, camera bump, microfibre lining and the polycarbonate shell beneath the leather.

Package includes

- 1x Mujjo Leather Case for iPhone 16 Pro - Black
- 1x User manual
