

Crafted to complement the iPhone 14 Pro Max, this Mujjo leather case combines refined design with everyday protection. With premium vegetable-tanned leather, built-in MagSafe, and carefully considered details, it turns your phone into a timeless accessory that looks better the more you use it.

- Premium vegetable-tanned Ecco leather that develops a rich patina
- Integrated MagSafe for fast wireless charging and accessories
- Super-slim profile with raised bezels and camera bump for protection
- Machined metal buttons for precise, tactile control
- Soft Japanese microfibre lining to cushion and protect your iPhone

Premium vegetable-tanned Ecco leather that develops a rich patina

This case is wrapped in high-quality vegetable-tanned Ecco leather from the Netherlands, developed to be both durable and beautifully refined. Rated Gold by the Leather Working Group for environmental standards, the leather is designed to age gracefully, developing a unique patina over time that reflects your daily use. Available in classic Tan, Black, and Monaco Blue, it delivers a sophisticated finish that elevates your iPhone 14 Pro Max.

Integrated MagSafe for fast wireless charging and accessories

Magnetic technology is built directly into the case for seamless use with MagSafe. Snap your iPhone onto MagSafe chargers for fast wireless charging without removing the case, and enjoy instant compatibility with MagSafe accessories such as wallets and mounts. The magnets are precisely aligned for a secure connection that feels natural in everyday use.

Super-slim profile with raised bezels and camera bump for protection

Designed to follow the natural contours of the iPhone 14 Pro Max, the case maintains a super-slim silhouette that feels secure and comfortable in your hand. The leather rises approximately 1 mm above the edge of the display, creating a protective bezel that helps keep abrasive surfaces away from the screen. Around the rear camera, a raised bump shields the protruding lenses, while the base is neatly covered for extra protection without blocking the speakers or charging port.

Machined metal buttons for precise, tactile control

The side buttons are crafted from machined metal to deliver crisp, satisfying feedback with every press. Carefully tuned for optimal responsiveness, they make volume and power controls feel more precise and reliable. Each button is dyed to match the leather color, preserving Mujjo's clean, minimalist aesthetic while enhancing usability.

Soft Japanese microfibre lining to cushion and protect your iPhone

Inside, your iPhone 14 Pro Max rests against a premium Japanese microfibre lining. This super-strong yet exceptionally lightweight fabric has a satin-like finish that feels luxurious while providing gentle, padded protection against scratches and minor impacts. The combination of rigid structure, soft lining, and full leather wrap keeps your device safe without adding unnecessary bulk.

Package includes

- Mujjo Leather Case with MagSafe for iPhone 14 Pro Max - Tan
