Premium European leather
Made from northern European hides and tanned using an environmentally friendly process, this durable, gold-rated leather develops a distinctive patina over time.

Machined aluminium camera protection
Machined from recycled aluminium, the camera surround helps protect the rear camera lenses from bumps and scratches. Its colour matches the leather and buttons for a coordinated finish.

Responsive machined metal buttons
The machined metal side buttons provide responsive operation and are tailored to the iPhone 15 Pro Max. Their colour matches the leather.
