# Mujjo Slim European Leather MagSafe Case for iPhone 16 Pro Max - Black

Mujjo's Leather Case for iPhone 16 Pro Max in Black pairs premium European leather with recycled materials in a minimalist design. It offers durable protection, responsive metal buttons and MagSafe compatibility for everyday use.

- Premium European leather
- Machined metal buttons
- Machined metal camera bump
- Japanese microfibre lining
- MagSafe compatible
- B Corp-certified brand

**Premium European leather**
Made from northern European hides, the leather is tanned in the Netherlands using the DriTan process, which reduces water waste and chemical use. The durable leather develops a unique patina over time, adding character to your case.

**Machined metal buttons**
The machined metal side buttons respond with a satisfying click. Dyed to match the black leather, they complement the case's minimalist design. The iPhone 16 Pro Max case includes a mute button and a one-piece volume button.

**Machined metal camera bump**
A machined recycled aluminium camera bump protects the rear camera lenses and adds durability where leather is more vulnerable to damage. It provides robust protection against bumps and scratches.

**Japanese microfibre lining**
The interior is lined with premium Japanese microfibre. This thin, lightweight recycled fabric has a soft, satin-like finish and provides padded protection for your iPhone 16 Pro Max.

**MagSafe compatible**
Built-in magnetic technology supports fast wireless charging and compatibility with all MagSafe accessories while maintaining the case's minimalist appearance.

**A focus on sustainability**
As a B Corp-certified brand, Mujjo continues to work towards greater sustainability. The case uses recycled materials in its metal buttons, camera bump, microfibre lining and polycarbonate shell beneath the leather.

**Package includes**
